AVIATION AND AEROSPACE SPECIALIST HIGH SKILLS MAJOR PROGRAM

Coming September 2018!

The **Aviation and Aerospace Specialist High Skills Major Program*** allows students to focus their high school learning on the Aviation and Aerospace sector while meeting the requirements for secondary graduation.

Students will:

- Learn sector-specific skills and knowledge in a hands-on, career-related learning environment.
- Earn industry recognized certifications and training (eg. *Standard First Aid, CPR, WHMIS, Fall Protection, Working at Heights, GPS, Confined Space Awareness*).
- Complete the Transportation Technology: Light Aircraft and sector specific Cooperative Education credits at the **Canadian Bushplane Heritage Centre** in one of Canada's oldest aircraft hangars (*built in 1924*).
- Participate in the **Sault College Dual Credit Program***.
- Be provided with transportation to the Canadian Bushplane Heritage Centre.

*Pending approval
